

# HORIZONTAL EARTH BORING MACHINE

Economical and versatile boring machines!

The "Prairie Dog" Model 900 allows a single operator to bore holes from 2 to 14 inches in diameter, in lengths of up to 150. The Model 900RTW is a versatile boring machine designed for any size job. Its high floatation tires make it easy to use even extremely wet conditions. The Prairie Dog is designed to be inexpensive to operate and requires little maintenance.

Whether you install cables or pipelines, digging trenches through existing structures is expensive and time consuming. The "Prairie Dog" line of products allows you to bore holes under existing structures easily and economically.

## MODEL 900RTW
